INTRODUCTION

The 2022 edition of *Public Libraries in Louisiana: Statistical Report* includes data gathered from all public libraries in Louisiana by the State Library of Louisiana using Bibliostat Collect. The report complies with the Federal/State Cooperative System for Public Library Data (FSCS). It is a compilation of information about libraries, including:

- all money available to a library from all sources of funds,
- all expenditures made by the library,
- populations served,
- collections, services, and staff provided during the reporting year, and
- performance measures.

Each table is arranged with the libraries listed in alphabetical order. A Louisiana Public Library Directors Telephone and E-mail Directory is included.

In addition to the actual data reported, some performance measures have been calculated for each library. It is important to remember that performance measures and comparative statistics are not absolutes. No single measure tells a complete story, and there are no right or wrong measures. An individual library's statistics should be considered in the context of its roles, goals, and objectives.

Change and recovery from the events of the pandemic continued in 2022. The number of physical visits to libraries continued to rebound. Use of library collections increased by over 13%. Libraries continued to locate, purchase, and provide many electronic resources to meet the needs of their communities. Use of computers in libraries and the increase in wireless use emphasize the role of the public library in helping to continue to work to bridge the digital divide which exists across Louisiana. Library programming remains strong and reflects the important role of libraries in the life of the community.

We have continued the reporting of programming statistics in the new format which reflects the questions asked in the national survey. There are three tables with information on in-person programs, virtual programs, and the combined totals. The number of programs at public libraries increased by 53%.

The table added in 2020, and continued in 2021, which lists some of the COVID-related restrictions to public services in Louisiana public libraries was removed.

Technologies (such as wireless) continue to provide new challenges in measuring use of library services. Many libraries expanded their wireless services outside their physical locations to better meet the current needs for electronic access – especially in areas where wired service is limited. Current statistics do not completely reflect the increase in complexity and level of use of the modern public library. The State Library continues to support public libraries in the state to meet the new challenges facing us.

National data is cited from these sources:

Institute of Museum and Library Services, PLS Benchmarking Tables, <https://imls.gov/pls-benchmarking-tables> (data available electronically only)

Swader, Lorelle, *ALA-APA Salary Survey 2019*, Chicago, American Library Association-Allied Professional Association, 2019, <https://ala-apa.org/salary-survey/> (data available electronically only).

If you are interested in additional statistical information, or in how to use statistics for planning and budgeting, or for assistance in analyzing the statistics and performance measures, please contact Library Development at the State Library, 225-342-4931. If you have any comments or suggestions about the format of the publication, contact Michael Golrick at 225-342-4917, email: mgolrick@slol.lib.la.us
